Claims of the Territories to Be Investigated.

Indulges in Much Filling Homestead Trouble Subject of Inquiry.

July 28.—[Associated Press.]—The senate today, Senator Nevada, from the committee on expenses, quoted a resolution of the appointment of a select committee of seven senators to investigate labor troubles in Pennsylvania and also a resolution of the committee of three to reserve of California into the rights of the bona fide miners there. Agreed to. Senators Morgan and Morgan will continue the committee.

The flames are spreading and it is feared the town is doomed. The fire was checked after nearly a score of stores and residences were destroyed. The total loss will exceed \$50,000.

Denison, Tex., July 28.—This city and the Chickasaw nation are considerably worked up over the discovery of zinc fields upon the Creek river near Oil Wells. An analysis of the ore develops the fact that its richness is equal to the famous Missouri mines, and that it is inexhaustible as to quantities now in sight.

The Death List. St. Louis, Mo., July 28.—The death list of the Mill creek sewer explosion increased when the body of C. Kreibohm, a liquor dealer was found this evening. Another body was picked up on the river bank below the mouth of the sewer. The body had a bank book bearing the name of A. J. McClellan.

Miners at El Paso. El Paso, Tex., July 28.—The executive committee of the Southwest Miners association met here with representatives from this state, Arizona and New Mexico and decided that the annual convention of miners meet at El Paso Dec. 5th to 8th.

The Heat in West Tennessee. Milan, Tenn., July 28.—The thermometer reached the highest point of this season yesterday, being 99 degrees. Six cases of sun stroke are reported in the rural districts and many cattle are dying from the excessive heat.

Refreshing Cook. Minneapolis, July 28.—There was a killing frost in Montana last night and a cold wave is coming this way. It is general over British Columbia, at Fort Assiniboine and the temperature has fallen to 30 degrees.

"KNOCKED DOWN." Street Car Conductors Get Into Trouble.

They Made More Money Than the Owners of the Lines They Worked For.

Portland, Ore., July 28.—[Associated Press.]—About forty conductors on the electric street car lines were arrested this afternoon for "knocking down," G. B. Mackle, president of both companies, said: "We had known for a long time that we were being robbed right and left by our employees. Some six months ago we commenced to gather evidence against the suspected men and we found that we have been losing on an average of \$4,000 monthly through the dishonesty of our employees. We now have evidence most conclusive against the men."

Executed Himself. Oregon City, Ore., July 28.—Charles Wilson, the murderer of Mamie Welch, committed suicide at 2:30 p. m. by hanging himself in his cell. He removed the bandages from a broken arm and hanged himself with them. He was discovered by other prisoners but life was extinct when the officers reached him.

Wheat Short in the Northwest. Portland, Ore., July 28.—Owing to the severe weather last spring and the hot period that followed, there will be a great shortage in the Oregon and Washington grain crop. The deficit in the Oregon yield alone is estimated at 2,300,000 bushels.

CAUSED BY WOMEN. The Downfall of a San Francisco Man.

He is a Defaulter in the Sum of \$50,000 by Associating With Bad Women.

SAN FRANCISCO, July 28.—[Associated Press.]—Detective Morse left for San Diego accompanied by an aid today to bring back to this city Enoch Bidleman, the defaulting bookkeeper of the wholesale liquor firm of E. Martin & Co.

Bidleman was arrested yesterday on the arrival of the steamer, San Juan, at San Diego en route to Panama. He had paid cash fare on the steamer instead of purchasing a ticket and was going under the name of H. Young.

The amount of the defalcation is not exactly known, but is placed at between \$40,000 and \$50,000. It is thought probably which he owns in this city and Oakland will cover most of the loss. His downfall is ascribed to consorting with women of the town, though his wife is residing in Oakland.

He Wants a Divorce. NEW YORK, July 28.—Edward Parker Deacon, who is serving a one-year sentence at Grasse for shooting and killing M. Abelle at the Hotel Splendide, has opened a proceeding against his wife for adultery. This action is taken by Mr. Deacon in consequence of Mrs. Deacon's application announcing her husband to permit her to have access to the children. According to the French law, if Mrs. Deacon is found guilty of the charge her husband makes against her she will be liable to a term of imprisonment.

The custody of the children was awarded to Mr. Deacon, and they are now in charge of his brother. The state-nment that they are living with the mother at the Convent of Our Lady of the Assumption is disproved by the action taken by Mrs. Deacon.

In a Bad Box. LONG BRANCH, N. J., July 28.—Police Captain Layton was arrested for permitting chief O'Mera of Pittsburgh to remove Anarchist Moelick without requisition papers. Layton is subject to \$1,000 fine and imprisonment. The warrant was sworn out by a lawyer acting for Moelick.

WOULDN'T TELL.

The Editor of the Carson Appeal Jailed.

He Refused to Enlighten the Court.

Charged the County officials with Irregularities.

But Declined to Reveal to the Court the Name of His Informant—Taken into Custody.

CARSON, Nev., July 28.—[Associated Press.]—This afternoon the grand jury of Arapahoe county were called to investigate the charge of malfeasance in office made by the Appeal against the county officials. One charge made by the editor of the Appeal was that parties obtaining contracts were obliged to pay commission to the county officials.

Sam Davis, editor of the Appeal, was called upon to state the source of information, but declined on the ground that it was an unwritten law of the profession that confidential communications to editors were held inviolate. He was given until half past one by Judge Rising to reveal the name of his informant and again refused, whereupon he was ordered to jail until he should decide to reveal his authority. The sheriff took him into custody.

A later dispatch says Sam Davis is out of jail. L. Stevenson, the party who gave him the information having come forward and released him from the obligation of secrecy. Stevenson, who was brought before the grand jury and asked to testify regarding the commission demanded by the county officials declined on the ground that he would incriminate himself.

Sentenced to Hang. DENVER, July 28.—Judge Rising today denied the motion for a new trial on the part of Chris Kuehls, who was found guilty of murder in the first degree, in killing John Murray last April. The judge then sentenced Kuehls to be hung some time during the week commencing August 15th. When Kuehls was asked if he had anything to say why sentence of death should not be passed upon him, he said that the shooting was accidental.

ROOD'S CASE. The Convict Pays His Compliments to Dr. Paul Gregory.

The REPUBLICAN has frequently referred to the case of Geo. W. Rood serving a term at Yuma for murder and the effort of his friends in southern Pima county to procure his pardon. Mention was also made of a letter from Dr. Paul Gregory to the governor in which the writer characterized Rood as a cold-blooded murderer, protested against the pardon and denounced the petitioners as thugs.

To the Nogales Herald, Rood recently wrote the following letter taking occasion to remove the skin from Dr. Gregory:

FAIR CHATHAM: I sincerely thank you for the good will and charitable feeling that prompted the kind words in your issue of July 17th relative to myself (though a convict) whom you call friend. I am now aware of the fact that friendship is a rare plant of tardy growth and appreciate it more highly.

I regret however, that one Paul Gregory (not the apostle) should have so far forgotten what he owes to the citizens of Nogales temporarily, peculiarly, and otherwise as to malign in his endeavor to kick a fallen man. For myself I should not care so much but it is a true source of regret to know that those whom I have always found honest and courteous should be abused. Again thanking you and my many friends for the interest shown in my welfare, and for your generous sympathy, I have the honor to be your friend, G. W. Rood.

HE IS ONLY ONE Of the Thousands who Believe the Same Thing.

Dr. Wm. Kline of Des Moines, Ia., who spent a couple of months in Phoenix and returned home two weeks ago, writes back that he did not fully realize the beauty of the valley until after he had left it. Everything he has seen since he went east has suffered by comparison.

Although he was here during the hottest part of the most torrid season that has ever been experienced in Phoenix, the doctor writes that he has suffered more from heat during the few days he has been at his northern home than he did during his entire stay here. While the thermometer has not ranged so high at Des Moines the temperature is of the kind which saps energy and strength and threatens life itself. He is a thorough convert to the doctrine of the excellence of the Salt River valley.

SLIPPED A COG. The Twinkler's Ears Protrude Again.

A morning paper, with its accustomed disregard for truth, after the trial of young Harrington, at which he was acquitted, broadly asserts that the young man was guilty, as charged.—Phoenix Herald.

The Twinkler's strictures are either mendacious or insane, or both. There was nothing in the Tucson Republican's report of the Harrington case calculated to cast any reflection upon the defendant who was acquitted. The Gazette's account of the trial was equally free from any attempt to do the young man an injustice. As there is no other "morning paper" in Phoenix the Twinkler may be suspected of having slipped a cog. But all these things will be set right when the Twinkler's kindergarten is put in running order and its young man shall have been taught to read intelligently and understandingly. He'll learn to write later.

To Locate Water Rights. The irrigating scheme of which Sheriff Montgomery, Thomas Greenhaw and

Dr. Mahoney are at the head has taken definite form. Not only have all legal formalities been fulfilled, but a party has set out to locate water rights.

The center of the system will be at the junction of the Santa Maria and Big Sandy and the land expected to be covered is the great cactus plain whose thousands of acres lie to the southwest of the junction of the Santa Maria and Big Sandy.

The Sugar Beet. The harvests of the sugar beets on Gird's Chino ranch has commenced. The tonnage is enormous, being about twenty tons to the acre. As regards the quality of the product the Champion has this to say:

An interesting fact is that the first thousand tons delivered this season average 17 per cent sugar. This is actually unprecedented. At no other sugar factory in the world has such results ever been achieved, and it seems almost incredible to those who have had extensive experience with factories in other countries. Yet on these figures is based the price to be paid for the beets, and that is proof sufficient of their correctness.—Prospector.

The Phoenix Marble works on West Washington street opposite Gibson's stable has a fine display of monuments on exhibition and is prepared to suit all tastes and at all prices, which are, however, very reasonable. This is the only marble yard in the territory and it will pay to examine designs and quality of work before sending away. M. M. Miller, the manager, understands the business thoroughly and guarantees satisfaction.

Impromptu Prize Fighters. The monotony of the week was broken by services in the recorder's court yesterday morning. Senors Leon and Oteze had got drunk and organized an impromptu prize fight the night before. Both pleaded guilty and Leon was given ten days, Oteze five.

A RUSH OF BUSINESS In the Lower Court Yesterday Afternoon.

How Six Persons Managed to Divert Themselves and Drive off Ennui.

There was an overflow of legal business in Justice Huseon's court yesterday. It had been prepared in short order and consisted entirely of misdemeanors, chiefly of the nature of infractions of the peace.

There seemed to be an unaccountable disposition on the part of a certain class of citizens to converse in inflammable, improper and illegal language.

The first victim was Chona Guerra, whose expressions if committed to writing and put into a mail box would have got him into serious trouble with a gentleman named Wananmaker, and have offered him a temporary residence at Yuma. As it was he got ten days in the county jail.

Fausta Arros, a lady old enough to know better, was next brought up for admonishing Jose Valencia and reviling his mother.

She countered on Jose and his brother Juan, by causing their arrest for having set the pace in these social amenities.

These cases were continued until tomorrow.

Ramon Contreras and Jesus San Miguel were found on the street intoxicated and in such a state of nudity that ladies who passed them regretted that they hadn't gone by on the other side. They were given five days each.

A Fat Take. There will be an experiment soon tried in the Harqua Hala country where an underground stream was discovered some time ago. It is the intention at present to go down to where the gravel is struck and begin panning for gold, as it is known there is a large quantity of it in the gravel through which the stream runs. The results of the work will be watched with much interest, as it is expected that the experiment will prove a big success.

A deed was filed for record today from August Mayer to A. C. Gilmore and W. A. Long, for the Nonpareil mining claim on Lynx creek, for \$50. As the purchasers are both printers, they propose to slug their claim out in a double-headed dividend producer.—Journal-Miner.

A Young Husband Missing. The whereabouts of a young man named Brizee of Mesa have become a subject of anxiety to his friends. He came to Phoenix last Friday and left the next night by rail under suspicious circumstances.

He had recently been married and was supposed to be living happily. His partner at Mesa, a Mr. Peterson, came in and got the horse which Brizee left, but nothing has since been heard of the young man.

House, Sign & Carriage Painting, Paper hanging etc. John Q. White opposite Commercial Hotel.

Dr. Ancl Martin, diseases eye, ear, nose throat a specialty. Glasses fitted.

Lost. A small hard back book about 5x6, with list of bills. If returned to this office the finder will be rewarded.

"Hole-in-the-Rock." Public reception every Sunday from 10 till 5. CHARLES D. POSTON.

Fair Warning. Having obtained, about eighteen months since, for labor performed, an interest in the New River or King dam site, situated about twenty miles north and west of Phoenix, and which location was duly recorded according to law, and which dam site was some months since by one H. W. Eaton attempted to be transferred to the Rio Verde Canal company, I hereby warn all persons from negotiating in any way, shape or manner for said dam site, as no legal title can be given to said property before satisfying my claim.

C. J. DYER.

THE TWINKLER

Makes a Long-Eared Ass of Itself

That it May Pose as a Lover of Justice.

Six Months Ago it Made the Poverty of a Young Man

The Subject of Ridicule and the But of Its Coarse Wit or Its Brutal Malignity.

The Herald yesterday senselessly and without any apparent purpose criticized "a morning paper's" report of the trial of J. B. Harrington, lately acquitted of a charge of attempted rape, and without cause asserted that the "morning paper" had declared that Harrington was guilty. The files of THE REPUBLICAN have been examined and nothing has been found which warrants the Herald's charge.

Before the trial the incident of the arrest was mentioned and the nature of the complaint which led to it was given as a matter of news. After the trial the result was given along with the evidence adduced, which justice Huseon deemed insufficient to bind the defendant.

Except in cases in which the action of a court is manifestly and notoriously improper and unjust it is not the province of a newspaper or individual to question the honesty or ability of the court. THE REPUBLICAN has not done so in this instance.

The Herald's interest in the case after it had been disposed of is probably due to the circumstance that it did not hear of it until it came to trial, three days after the warrant was sworn out for a crime second in seriousness only to murder. Its columns have frequently set forth that that journal is a paper in which "are all the news," if not there when the news is fresh "they" are sure to appear sometime. So this is no doubt why the Herald brings the matter up at a time when it has been forgotten by more progressive people.

In the course of its advertisement against the morning papers course the Herald says:

The young man is a comparative stranger here, the Herald, deeming it an act of justice due the man, looked up his record, etc.

This recalls an incident of six months ago. A young man came to Phoenix about that time and set up a candy stand on a street corner because he hadn't enough money to pay the rent of a room. His stock was limited for the same reason, but he did the best he could. The course humor of the Herald was directed at this candy stand; the proprietor was taunted with his poverty and the attention of the public was called to it with a frequency which suggested malignity on the part of the paper. Its readers were asked to take note of the pound of sugar and the coal oil stove and were warned against the purchase of the young man's candy under pain of severe intestinal derangement.

The young man prospered in spite of the wit and malice of the Herald; he paid his bills became able to pay rent and his little corner stand rapidly developed into the thriving business of the Candy Kitchen.

This is the stickler for justice which goes behind the action of a court to hunt up the record of a defendant by which it proposes to show that he could not have been guilty of a specific crime.

FREE MAIL DELIVERY. A Postoffice Inspector will Visit Phoenix in the Matter.

Postmaster Copes yesterday received from the postoffice department the following communication:

WASHINGTON, D. C. July 25. POSTMASTER, PHOENIX, ARIZONA. SIR: Yours of the 15th, inst., asking for the establishment of the free delivery service, has been received and referred to an inspector of this department, who will visit your city and inquire into its claims for this service. Very Respectfully,

First Asst. Postmaster-General. Phoenix has many claims for a free mail delivery service which cannot be offered by cities of larger population. The volume of matter handled here is more than that of many other towns twice the size of this city. A large ratio of the population is made up of business men to whom a free delivery would be a needed convenience.

EATEN BY WILD HOGS. Terrible Fate of a Child in the Indian Territory.

WICHITA, Kan., July 28.—Mrs. William Finney of Paul's Valley, I. T., laid her 11-month-old infant down at the end of a clump of timber yesterday morning while she went in search of some stray cattle. She had been gone only a minute when she heard the baby cry and, hurriedly returning, she was horrified to find the child being torn to pieces by wild hogs.

The little body was terribly mangled when the mother succeeded in beating off the brutes. So prostrated is Mrs. Finney by the awful experience that her life is despaired of.

TWO STRANGE ISLANDS. They Are in the Gulf of California, Between Guaymas and La Paz.

An employe of the state department has given an interesting description of two islands situated in the gulf of California, which were recently visited by him. About an equal distance between Guaymas and La Paz lies the island of Carmen, where there is an immense salt lake, surrounded by hills, forming a sort of crater; the salt deposits mixed with murate of soda lie in strata, which begin with a thickness of six inches and increase fourteen inches at fourteen feet below the surface. The climate is exceedingly hot, and only a few people live on the island, which is almost devoid of vegetation except for the luxuriant cactus growth.

The island of Tiburon, situated an equal distance north of Guaymas, is

said to be a resort of the Ceres Indians. They are exceeding hostile and oppose the landing of strangers on what they consider their domain. Their weapons are poisoned arrows. The canoes made use of by these Indians are of peculiar construction, consisting of long reeds bound together with strings.

LOCAL AND PERSONAL. A reading will be given next Tuesday night for the benefit of the public free library.

Superintendent M. M. McInerney of the Yuma penitentiary arrived in the city yesterday.

A contract was awarded yesterday for the construction of a school building in the Osborne district at a cost of \$4,000.

Eugene L. Jackson yesterday made final proof in the matter of the Homestead entry of the sw. 1/4 of sec 33, tp. 1 n. r. 2 w.

There were registered at the Mills yesterday William B. Munt, Los Angeles; J. D. Hamilton, Chicago, and M. McInerney, Yuma.

Mr. Chas. Mason of Florence, formerly deputy county recorder of Pinal county is in the city. He will remain here several days.

Postmaster Copes was notified by the department yesterday that a postoffice had been established at Glendale with S. B. Stoner as postmaster.

Judge Campbell returned yesterday from Prescott. His partner, Judge Baker, stopped at Los Angeles, where he will remain a day or two.

Superintendent Riel of the Indian school yesterday secured authority from the government to erect an addition to the school building at a cost of \$15,000.

Fowler Bros. yesterday received from Missouri a fine Berkshire bear for their hog ranch near Phoenix. He has already been distinguished by the aristocratic title, "Duke of Arizona."

Editor Curt Miller of the Tempe News, accompanied by his wife, returned home yesterday after a three months' visit in Pennsylvania and New York. The entire population of Tempe turned out to welcome him.

Frank Shirley returned yesterday from a five weeks visit through the east. He first went to New Orleans and from there to Memphis, where his mother resides. He returned by the way of Chicago and the north.

Dr. Woodruff has proscribed fleas and mosquitoes effectively from his rooms in the Cotton block by enclosing the veranda in front with wire screens. This is a fashion which if followed will give the upper stories of the principal buildings in town the appearance of immense fly traps.

NO ROSY COLORS. Are Half so Rosy as the Natural Ones.

So Thinks H. D. Spaulding of Spokane, who Arrived in Phoenix Yesterday Morning.

Mr. H. D. Spaulding of Spokane Falls, arrived in the city yesterday.

Mr. Spaulding is a member of the late firm of Spaulding & Fabyan, Spokane, his partner, Mr. Geo. Fabyan, being a son of the Fabyan of the great wholesale dry goods house of Bliss, Fabyan & Co., New York.

Mr. Spaulding and his partner sold out their extensive interests at Spokane a few weeks ago and since then they have been looking for another location. Mr. Fabyan went along the Pacific coast and Mr. Spaulding came down through Colorado and New Mexico. When he reached Tucson he became interested. While there he learned that his partner had an investment at Portland, Ore., in contemplation. He wired him to make no definite arrangement until he could further investigate the resources of Arizona.

He reached Phoenix yesterday morning and was so struck with the opportunities of the valley that he telegraphed Fabyan yesterday afternoon to come to Phoenix at once.

He says he can not say until his partner arrives what they will do, but the opportunity which seems to him to offer the greatest prospective profit is the stock business.

He had heard much of the wonders of the Salt River valley, but put it down to the fervid imagination of real estate agents; but he admits that the beautifully colored glass which real estate men usually put before the eyes of the unsophisticated stranger in this instance only tones down and lessens the effect of the natural colors.

The New Hotel. New interest is felt in the matter of the new hotel to be built at the corner of Washington and Pima streets. \$55,000 has already been subscribed by local capitalists and property owners in that vicinity and many others have expressed a willingness to take stock. It is also proposed to enlist the interest of eastern capitalists, which is a part of Governor Murphy's errand on his eastern trip.

Removal of M. & P. Offices. The office in San Francisco of Mr. N. K. Masten, President of the Maricopa & Phoenix Railroad Co., has been removed to room 3 Crocker building.

Maricopa County Republican Club. The Maricopa County Republican club will hold its next regular meeting at the city hall, on Saturday evening, July 30, at 7:30 p. m.

FRANK J. PECK, Secretary.

A Physician's Gift to Humanity. Weak men restored to perfect manhood by the Great Australian remedy, free. Address, Box 1964, San Francisco, Cal.

R. E. Holbrook, Surgeon Dentist. All work guaranteed and prices reasonable. Rooms No. 1 and 3 Porter building.

EAGLE TAIL.
